

IPELENG LERATO RAKGOTHO

Ext 10 Etwatwa Daveyton 1519
0740508476 | lerato.rakgotho@gmail.com

OBJECTIVE

Aspiring software developer eager to grow within a collaborative team environment. Seeking a role where I can apply my coding skills, learn from experienced mentors, and contribute to meaningful projects. Committed to continuous learning and leveraging new technologies to drive team and organizational success.

PERSONAL DETAILS

- Nationality : South African
- Driver's License : Code 10

EDUCATION

- **Tshwane University of Technology**
2024
Advanced Diploma: Computer Science (NQF Level 7)
- **Tshwane University of Technology**
2021
National Diploma: IT Software Development (NQF Level 6)
- **Mabuya Secondary School**
2016
Matric

EXPERIENCE

- **National Consumer Commission**
September 2022 - August 2024
ICT Intern
Working on eService system that is used to file complaints online (eservice.thencc.org.za). Split systems into internal and external access. Implement new API architecture using Clean architecture with the latest .NET Framework. Conduct system testing and User Acceptance Testing sessions. Bug fixing and system maintenance. ICT service management. Responding to end-user queries.

PROJECTS

- **Asset Management System**
Developed a web-based Asset Management System that improved asset tracking, maintenance, and incident reporting.
Designed and implemented CRUD operations with role-based access control, enabling secure management for both users and admins.
Created a damage/incident reporting module with approval workflows, enhancing transparency and reducing manual reporting errors.
Applied MVC architecture and clean coding practices to ensure scalability and maintainability.
Tools & Technologies Used:
Backend: C#, ASP.NET Core MVC, Entity Framework Core, RESTful APIs
Frontend: HTML5, CSS3, JavaScript, jQuery, Bootstrap
Database: Microsoft SQL Server (Stored Procedures, LINQ, Indexing)
Version Control: Git, Azure DevOps

SKILLS

- C#, ASP.NET Core MVC, C#Solid Principles
- .NET Framework , RESTful APIs, SQL
- Microsoft SQL Server, MS Office
- Version Control -Git (Azure DevOps , GitHub)
- System Testing and UAT Support
- Technical Documentation (user guides, technical manuals)
- System support and maintenance
- Communication skills
- Team Collaboration
- Problem-solving skills

LANGUAGES

- English
- Setswana
- Isizulu
