

Ipeleng Lerato Rakgotho

Ext 10 Etwatwa Daveyton 1519
0740508476 | lerato.rakgotho@gmail.com

Objective

Junior Software Developer with practical experience in ASP.NET Core, C#, SQL Server, RESTful APIs, and software testing gained through a two-year ICT internship at the National Consumer Commission. Passionate about building scalable web applications, solving business problems through technology, and continuously expanding technical expertise.

Personal Details

- Nationality : South African
- Driver's License : Code 10
- Portfolio : <https://ipelengrakgotho.github.io/portfolio/>

Education

- **Tshwane University of Technology**
Advanced Diploma: Computer Science (NQF Level 7) 2024
- **Tshwane University of Technology**
National Diploma: IT Software Development (NQF Level 6) 2021
- **Mabuya Secondary School**
Matric 2016

Experience

- **National Consumer Commission** September 2022 - August 2024
Software Development Intern
 - Contributed to the development and maintenance of the NCC eService complaint management system.
 - Assisted in implementing RESTful APIs using .NET and Clean Architecture principles.
 - Performed bug fixing, troubleshooting, and system maintenance activities.
 - Conducted system testing and User Acceptance Testing (UAT) sessions.
 - Supported internal and external users by resolving technical issues and providing user support.
 - Participated in software deployment and documentation activities.

Projects

- **Asset Management System**
 - Contributed to the development of a web-based Asset Management System focused on asset tracking, maintenance, and incident reporting.
 - Implemented assigned modules and features, including CRUD functionality and role-based access control.
 - Assisted in the development of the damage/incident reporting workflow and approval process.
 - Applied ASP.NET Core MVC and clean coding practices to support maintainability and scalability.
 - Due to confidentiality agreements, detailed project information cannot be disclosed.

Tools & Technologies Used

- Backend: C#, ASP.NET Core MVC, Entity Framework Core, RESTful APIs
- Frontend: HTML5, CSS3, JavaScript, jQuery, Bootstrap
- Database: Microsoft SQL Server (Stored Procedures, LINQ, Indexing)
- Version Control: Git, Azure DevOps

- **TalentTrack E-Recruitment System**
Full-stack recruitment system for managing job posts, applicant applications, CV uploads, and automated candidate screening.
Features:
 - Role-based HR and Applicant portal
 - Job posting and application management system
 - CV upload (PDF) and applicant tracking
 - Automated scoring based on qualifications and experience
 - MySQL database integration with ASP.NET MVC backend**Technologies:** C#, ASP.NET MVC, Entity Framework, MySQL, HTML, CSS, JavaScript, Bootstrap
- **StressGuard - Stress Detection System**
Machine learning web application that predicts stress levels using smartwatch health data such as heart rate, sleep hours, and blood oxygen levels.
Features:
 - Stress level prediction using ML model
 - Historical stress tracking with graphs
 - Admin dashboard for dataset upload and model training
 - Stress management resources and tips**Technologies:** Python, Streamlit, Scikit-learn, Pandas, Matplotlib, Firebase

Skills

- Programming Languages: C#, Python, JavaScript
- Frameworks & Technologies: ASP.NET MVC, Entity Framework Core, RESTful APIs, LINQ
- Databases: Microsoft SQL Server, MySQL
- Frontend: HTML5, CSS3, JavaScript, Bootstrap, JQuery
- Tools & Platforms: Git, Azure DevOps, GitHub, Visual Studio, Microsoft Office
- Concepts: Software Development Life Cycle (SDLC), System Testing, UAT, Clean Code Principles (SOLID)

Languages

- English
- Setswana
- Isizulu
